On Saturday, 9th August 2003, Harry Reminder, Thomas Grasel and Carsten Strotmann met for a USB Coding Session in Frankfurt. It was a very hot day (40°C outside), and 5 Computers, big TV-Sets and Floppy-Drives gave a really warm feeling.

Here are some fotos of the day:

- USB PC-Case Connector:

- USB Cart attached to a ATARI 130 XE:

- Carsten coding:

- USBTOOL Start Screen:

- Linux Kernel 2.6.0-test2 seeing a ATARI Joystick:

- USB Cart front:

- USB Cart back:
