

Clear Screen#

General Information

Author: Carsten Strotmann

Language: FORTH

Compiler/Interpreter: volksForth

Published: 2007

The word CLS clears the screen and sets the cursor to the home position. This is done on the Atari by printing the ATASCII value 125.

In some Forth Versions this is an alias for the word PAGE.

```
: CLS \ \ Clear Screen  
  &125 EMIT ;
```
