

How to find the revision number of Atari Basic#

With the BASIC cartridge put into your 400/800 or BASIC switched on, type (e.g. after the READY prompt)

```
? PEEK(43234)
```

and then press RETURN.

The computer will give you an result.

Result	BASIC	Comment
162	Revision A	First Atari BASIC cartridge, 8K ROM.
96	Revision B	Found built-in on the 600XL and early 800XLs. Never supplied on cartridges.
234	Revision C	Found on later 800XLs, the 800XLF, XEGS and all XE computers. Limited cartridge production run.
