- [Dorsett Atari Effective Writing EW](#)

This is an archive of the "Mathematics for Electronics" educational program published by Dorsett Educational Systems, Inc. in 1981. This was originally packaged as a set of 8 cassette tapes for use with Atari 400 and 800 computers.

The "raw recordings" directory contains the unaltered recordings from cassette, one file per tape, with both sides of each tape in the same file. You probably don't want to use this folder.

The main files (me1 through me16) are likely the versions you want to use with your Atari or emulator. These have been split into 16 files (one per tape side). The audio levels have had their volume normalized, as well as any pops and clicks removed, and subsequently repaired on the data tracks. Each tape has been verified to work on the Altirra emulator.

Finally, photos of the cassette tapes are included.

The work of digitization and audio cleanup was done by Kevin Savetz and Thomas Cherryhomes in May/June 2015.

Album: Mathematics for Electronics

Year: 1981

Original Format: Atari Educational System (Dorsett Talk & Teach)

Digital Format: Microsoft WAV, 2 channel, 16-bit 44100Hz sample rate

Digitized by: Kevin Savetz/Thomas Cherryhomes

Tracks:

Me1 Arithmetic Operations

Me2 Using the Slide Rule

Me3 Using the Electronic Calculator

Me4 2 Percent Arithmetic

Me5 Negative Numbers Notation

Me6 Adding and subtracting Fractions

Me7 Roots and Powers of Numbers

Me8 Powers of Ten in Electronics

Me9 Equations and Formulas

Me10 Operations with Unknowns

Me11 Making Equations from Statements

Me12 Solving Linear Equations

Me13 Solving Simultaneous Equations

Me14 Solving Quadratic Equations

Me15 Trigonometric Functions

Me16 Vector Operations

Tracks (size in sum: 1.63 GB):
