

Rarity 10 and above up to impossible#

This chapter is intended to make an outlook for programs which must exist, but seem to be lost over the decades. If you have any hint, idea or whatever else to help us to digitize this for generations to come, please let us know.

?) **Atari OS Rev. B (PAL) for Atari 400/800 from 1981 ; PRINT PEEK (65528) <RETURN> => 34**

There are more than rumors about this OS type, please see here:

[Atari XL OS full searchable](#) size: 14.8 MB

Page 31 in the PDF-file or page 28 in the manual itself.

If you own an Atari 400 or 800 in the PAL version, please do us a favor and enter:

?PEEK(65528)

in BASIC. If the result is 34, then you own the most expensive Atari in the world, which has an OS we do not have up to today. It is only a little step for you, but would be a giant leap for the Atari community. Everlasting fame is sure for you in that case.

Further we are looking for:

?) **OPERATING SYSTEM 255 for Atari 400/800 ; PRINT PEEK (65528) <RETURN> => 255**

Many thanks to kr0tki who found the trace, that the OS 255 is for real! In page 8 of:

[All about Cassette Tapes from 1979.pdf](#) ; size: 741 KB we find:

Page 8 of: 'All about Cassette Tapes from 1979'

?) [The Atari Accountant Series](#)

?) [Atari Home Accounting System](#)

?) [Atari The Dow Jones Investment Evaluator](#)

Atari Dow Jones Investment Evaluator CX8124

Atari Dow Jones Investment Evaluator CX8125

Atari Dow Jones Investment Evaluator CX8127

?) [Atari Home Finance or Personal Finance](#)

?) [Atari Learning System Software](#) ; complete missing!

?) Desperate call for help on missing Dorsett tapes

Some tapes had severe damage and therefore couldn't be digitized. If anyone is in the possession of the following tapes, please give us a message or a post [here](#). We really need your help and appreciate just any hint on the programs, who seem to be lost in time, like tears in rain.

The left ones to digitize are as follows:

- **General Shop Practices:**

Oa1 Tool Identification Lesson, Part 1

Oa7 Discussion of a Two-Cycle Engine

Oa8 Use of Micrometers and Calipers

- **Health Services Career:**

Hc5 Medical History

Hc6 Extended Care

- **Physics:**

Ph16 Theory of Relativity

Well, concerning Physics, we may can restore Ph16 from the Atari-Version of that course, Physics CX6008? Just loud thinking...

?) **OSS MAC/65 MACDO.M65** - file published by OSS via BBS

?) **McStuff Co. OSS BUG/65 revision 1.1**

?) **OSS BUGV4FIX.COM** - file needed to patch BUG/65 to work with DOS XL 4

?) **OSS Newsletters**

We already have:

OSS Newsletter - Summer 1983

OSS Newsletter - January 1984

OSS Newsletter - Spring 1984

OSS Newsletter - October 1984

OSS Newsletter - Fall 1986

OSS Newsletter - Winter 1987

?) **OSS Newsletters disks** ; all are missing

?) **Action! - Graphics Utilities Library and Shape Editor**

?) Synapse Software: **SynMail**; was finished according to Steve Hales, but after SynCalc und SynFile + never sold to the public. So, somewhere out there, it may exists

?) Synapse Software: **SynText**; was finished according to Steve Hales, but after SynCalc und SynFile+ never sold to the public. So, somewhere out there, it may exists

?) Synapse Software: **SynTax**; ever shipped? Status, as of 2015, is complete unclear.

?) **Assembler Editor Cartridge Source Code**

?) **Atari Macro Assembler (AMAC) and Program Text Editor Source Code**

?) **OSS EASMD Source Code**

?) **OSS BASIC A+ Source Code**

?) **BUG/65 Source Code**

?) **Kyan Pascal**: The community with the help of all has made great progress regarding Kyan Pascal. Tom Eckmann, CEO of Kyan Pascal, was so nice to us, by giving Kyan Pascal into PD. To complete Kyan Pascal, we need your help again. The missing list is as follows:

- **Kyan Pascal version 1.2 and 1.3**

- **Programming Utility Toolkit for Kyan Pascal version 1.x**

- **Advanced Graphics Toolkit for Kyan Pascal version 1.x**

- **Kyan Pascal version 2.00 and 2.03**

- **System Utilities Toolkit for Kyan Pascal version 2.x**

- **Code Optimizer Toolkit for Kyan Pascal version 2.x ; includes the source code for the Runtime Library**

?) **Forth Compiler from Frank Ostrowski (seems to be lost in time, until a friend of Frank may give it to the community?)**

?) **Silent Butler 80 ; never shipped, but finished**

?) **Pole Position II (title by Namco; never shipped, but exists!)**

?) **Atari Editor CX8105** (maybe replaced by the Atari Program Text Editor?)

?) [Phoenix for Atari 800](#)

?) [Atari Force - Liberator \(C\) 1982 Atari, Inc.](#)

?) [Pursuit of the Pink Panther](#) ; Copyright (C) 1983 NAP Consumer Electronics, Licensed from MGM/UA with the music from Henry Mancini!!!

?) **German ATARI SOFTWARE:**

- [Himmel Schreiber](#)

- [BASIC für Fortgeschrittene](#) (wurde es je fertig? ; Herbst 1984) - mit der Stimme von Dagmar Berghoff auf der Audiospur der Kassette

- [Super Biorythmus](#) (wurde es je fertig?)

- **WWF-Club-Spiel - A cartridge used by German Television in the 80's for a call-in game via telephone - programmer has lived in Hattingen/Germany**

- **Atari Datenbank DXG 5723 Copyright © 1983 Atari Elektronik Vertriebs GmbH**

Hierzu ist zu sagen, dass bis heute keine Version öffentlich bekannt ist. Ferner ist noch nicht einmal eine Boxenhülle als Bild vorhanden. Mit an Sicherheit grenzender Wahrscheinlichkeit handelt es sich hier um eine Ankündigung, die niemals verkauft wurde. Meist sind solche Programme im Entwurfsstadium (Prototyp) eingestellt wurden. Sollte dennoch jemand im Besitz dieser Software sein, würden wir uns über eine Rückmeldung sehr, sehr freuen. :-)
